**SEE QUICK ACTION**  
WASHINGTON, Dec. 19.—(UP)—Republican leaders predicted today the new Congress will react with "swift and drastic" anti-strike laws to any labor paralysis of basic industries in 1947.

One highly influential House Republican said there was at present "no disposition here to punish anyone or to retaliate against labor for the coal and automobile strikes."

"But another nationwide strike," he added, "would drive in the needle and might lead to anything."

**DECISION ON U.S. PROPOSAL UP TO SOVIET**

ON-THE-SPOT PROBE OF BORDER TROUBLES IS URGED

LAKE SUCCESS, N. Y., Dec. 19.—(UP)—Russia, with her single vote the determining factor, was expected to make a decision today on the American proposal for an on-the-spot United Nations investigation of border troubles.

The United States suggestion that a seven-nation commission go "at once" to the Balkans to find the cause of trouble between Greece and her three neighbors seemed certain of approval in the 11-nation Security Council unless Soviet Delegate Andrei A. Gromyko uses his veto.

The investigation was proposed yesterday by American Delegate Herschel V. Johnson as the only means of settling fairly the Balkan dispute. The commission would be made up of representatives of the United States, Russia, Britain, France, China, Poland and Brazil.

Well-informed sources said that the American and British representatives had been unable to determine the Russian attitude toward the proposal up to the time of meeting at 10:30 a. m. today.

They were prepared for a second session later in the day to wind up the case if possible.

In September, when Russia and the Soviet Ukraine lost their fight to indict the Greek monarchist government as a threat to peace, Gromyko vetoed an American proposal to send UN agents to investigate the borders trouble of Greece, Albania, Bulgaria and Yugoslavia. At that time Johnson proposed a three-man body, not necessarily representing countries of the Security Council.

All four of the Balkan countries involved in the current tiff have proposed investigating commissions, but none of them has sought an investigation of both sides of the borders separating Greece from Albania, Yugoslavia and Bulgaria.

Johnson's proposal would empower the commission to dip as far into any of the four countries as it deemed necessary to get the facts. This provision raised immediate doubts about Russia's approval, not to mention the three countries which are, first, defendants and, secondly, counter-appellants in the case before the council.

The three Balkan states were specific in demanding that any inquiry launched by the UN be aimed at the Athens government.

Johnson got immediate support from Britain's Sir Alexander Cadogan, who said the situation in the Balkans now was "a smoldering fire that may burst into flame at any moment." Paul Hasluck of Australia added that he not only could see signs of smoke, but could smell something burning.

Brazil endorsed Johnson's resolution. Poland's Oscar Lange reportedly was considering some amendments, but their nature was not disclosed.

**CIO Will File Strike Notices**

PITTSBURGH, Dec. 19. (UP)—The CIO United Steel Workers 174-man wage policy committee completed work today on the draft of demands to the industry and prepared to file strike notices with 44 companies a bolster the proposals.

The committee fixed no figure, but proposed "substantial wage increases," social insurance, portable-to-portable pay, and guaranteed annual wage, paid holidays and premium pay for work on Saturdays and Sundays.

Negotiations will start about Jan. 15, a month before contracts with 70 to 86 basic steel producers expire. The negotiations will effect immediately some 560,000 basic steel workers and later 1,000,000 including those in fabricating plants.

The strike notices will be filed at the same time as a technical procedure. A union official said they would not carry "any malice," but merely because they are "handy to have on hand" in event the negotiations break down.

**Coal Operators Ponder Contract**

WASHINGTON, Dec. 19.—(UP)—Soft coal operators assembled here today to talk about prospects for reviving their long-dormant contract negotiations with John L. Lewis' United Mine Workers (AFL).

The meeting reportedly was called to sound out the attitude of various groups within the industry on the tangled status of their relationship with the UMW.

Industry spokesmen gave no indication that a proposal to resume negotiations was imminent. Some government and industry officials believed there would be no move to revive negotiations until after the Supreme Court rules on the recent contempt of court verdict against Lewis and the UMW.

The Supreme Court will hear arguments Jan. 14 on the case, which resulted in the levy of \$3,510,000 in fines on Lewis and the union for defying a court order to postpone the recent strike.

**SEN. BILBO DENIES ALL ALLEGATIONS**

SOLON TELLS HIS STORY BEFORE WAR PROBE COMMITTEE

WASHINGTON, Dec. 19.—(INS)—Sen. Bilbo (D) Miss., made a sweeping denial today of wrongdoing in his dealings with war contractors, and pictured himself as a victim of "the greatest traitor of them all."

In a long and torrid prepared defense statement, Bilbo excoriated his former secretary, Edward P. Terry, he told the Senate War Investigating Committee:

"Christ had his Judas Iscariot, Caesar had his Brutus, George Washington had his Benedict Arnold, but I claim to have had the greatest traitor of them all in my trusted secretary."

Bilbo disclosed that during the 1942 campaign he kept \$25,000 contributed by F. T. Newton "in a pocketbook under the pillow" in the bedroom of a Jackson, Miss., motel suite.

He described the distribution of the campaign pot and shouted:

"You want to know what Bilbo got. That's the purpose of this investigation. You might as well stop it. I didn't get a damned cent."

WASHINGTON, Dec. 19.—(UP)—The Senate War Investigating Committee today summoned Sen. Theodore G. Bilbo, D., Miss., to give his own version of the gifts he received from grateful war contractors.

It listed Bilbo's long-awaited testimony as the windup in its week-long hearings into his dealings with the men he helped get government contracts.

The committee left open the chance of a double-barreled aftermath, however, in the nature of a contempt citation and perjury charges against Bilbo's former secretary, Edward P. Terry.

Committee counsel George Meader was instructed to take steps in that direction after Terry, testifying reluctantly, reversed himself once and finally refused to answer a specific question.

Meader said he would have to look up the law before taking any action. He said he was sending the Justice Department a copy of Terry's testimony as the possible basis for a perjury charge. He pointed out that the contempt citation may be delayed, however, because the Senate is in adjournment until Jan. 3.

The contempt citation and perjury charge were requested by Sen. Homer Ferguson, R., Mich., near the close of day-long questioning of the chain-smoking, nervous ex-secretary.

Terry testified that: 1. He and Bilbo both tried to help Mississippians get the contracts for construction of Jackson, Miss., Army Air Base, Keesler Field at Biloxi and Key Field at Meridian.

2. A. B. Friend, twice a Bilbo campaign manager, agreed to pay him \$4,350 for help on the Key Field contract. (\$3,600 to pay a Bilbo campaign debt and \$750 toward a note Bilbo owed). Friend denied it.

3. Friend told him he would be killed if he testified against Bilbo. Also, that two anonymous telephone calls later threatened the lives of his wife and daughter. (Friend denied it and said he would "risk my life" to protect Terry from harm.)

4. Felix T. Newton, another contractor, gave Bilbo \$25,000 to help re-elect former Sen. Wall Doxey, D., Miss., in 1942; that Newton laughed, "Oh, well, hell, I can charge them out on income tax" when Terry told him it was a shakedown. (Newton denied it.)

5. Newton once loaned him \$3,750 and shrugged off his offer of repayment. (Newton said his mind was a "complete blank" on the matter.)

6. He (Terry) did get \$3,750 from B. L. Knost, another contractor, but it was paying off a bet that the contract Knost ultimately would win.

**TRUMAN SEEN AS DEMOCRAT CANDIDATE**

HAS "NO COMMENT" REGARDING 1948 PRESIDENTIAL CAMPAIGN

WASHINGTON, Dec. 19.—(UP)—Harry S. Truman and a big city easterner are the team that practical politicians foresee right now as the 1948 Democratic presidential ticket.

The President was asked at his news conference yesterday whether he would accept the 1948 nomination. He replied:

No comment. Such a reply kept the question open and was about as close as Mr. Truman could come at this time to acknowledging his availability. During this year's difficulties with Congress, word seeped around Washington that the President was weary and looked forward to release from a job in which he was not achieving any spectacular immediate successes.

It is not unlikely that Mr. Truman did remark to some old friend that he was heavily burdened and would welcome relief in 1948. But Washington never took that very seriously, assuming the report was true. On the contrary, this capital has seen a president willingly laying down the burden—barring only Washington who established the late two-term tradition.

Herbert C. Hoover, who had the scratchiest hair shirt of any recent president, was a stubborn seeker of a second term. The late Franklin D. Roosevelt took not only a second but a third and fourth—the last at a time when he certainly was a very tired man even though his health was certified as good for his age.

The next Congress may well bring Mr. Truman to despair. But at the moment he looks and acts like a man in good spirits and enjoying life and his job. The nation's applause at his handling of the coal strike contributed more than somewhat to the President's good feelings. Another factor is the responsibility which Republicans now share with him in their control of the House and Senate.

Wise men report that Mr. Truman will not offer detailed proposals to this Republican Congress. Instead his annual message is expected to outline situations which should be dealt with. There will not be specific propositions which Republicans can reject. Rather, there will be citations of things with which it is the responsibility of Congress to deal.

Some of Mr. Truman's advisers believe such strategy will give him an opportunity to break even or better with the Congress next year. On that basis, the smile of the man from Missouri might brighten instead of fade.

7. Mike Morrissey, another  
contractor, gave Bilbo a \$1,900  
Cadillac at Christmas, 1941, and  
other friends of Bilbo joined in  
furnishing "Dream House No. 2"  
for Bilbo as a Christmas present.

8. Bilbo ordered him (Terry)  
to draw up lists of constituents  
who had been served by the of-  
fice and used the list to solicit  
contributions for a Junior  
Grove Baptist church parsonage  
which was built on Bilbo's land  
at Poplarville, Miss.

9. Bilbo once accepted \$1,500  
from Dr. A. J. Podesta, Vicks-  
burg, Miss., to arrange with the  
Narcotics Bureau in Washington  
for a "prescription" for a drug  
addict.

10. He (Terry) while still serv-  
ing as secretary, received \$15,000  
from a New Yorker to be used to  
defeat Bilbo for re-election in  
1946.

It was the \$15,000 that evoked  
the possibility of a contempt ci-  
tation and perjury charge.

Terry said the money was given  
him, in cash, in March, 1945  
by a New Yorker he identified as  
Simon Lieberman. He said Lieb-  
erman was willing to put up  
\$25,000 behind any candidate  
who could defeat Bilbo for re-  
election.

Terry said he tried to get the  
late Gov. Tom Bailey of Missis-  
sippi to be the candidate but the  
governor was too sick to make  
the race. He said he finally re-  
turned the \$15,000, in cash, to  
Lieberman in July, 1946.

Ferguson brought out that  
Lieberman died in January, 1946.  
Terry said the money was re-  
turned to the donor's estate.

Ferguson demanded that Terry  
name the person to whom the  
money was returned but Terry  
refused to do so.

**B-COMPLEX VITAMINS CALLED CANCER FOE**  
 SAN FRANCISCO (UP)—Preliminary findings in cancer research indicate the use of B-complex vitamins may help special cases of male sterility and feminine disorders, it has been found by Dr. Gerson R. Biskind, pathologist at Mount Zion hospital.

Reviewing ten years of cancer research based on the theory that vitamin deficiency may cause certain types of cancer, Dr. Biskind said his findings came as a result of focusing his research on sex hormone deficiency.

Male sterility and feminine disorders, he said, often tend toward cancer development.

Seeking proof that certain combinations of vitamins will give immunity to some types of cancer, the 38-year-old scientist cautioned against extravagant claims for his findings.

"It would be premature to call our loosely knit theoretical structure a significant advance in the understanding of all cancer," he said.

"But if we are right," he added, "we will show how to diagnose certain forms of cancer and, most important, how to correct cancer-producing conditions even before the cancer itself is manifest."

Dr. Biskind's associates explain that findings to date have shown for the first time in medical history that, as a result of experiments in producing cancer in the ovaries of experimental rodents, B-complex vitamins will preserve the necessary balance between male and female sex hormones.

### BORN IN COAL BIN

FORT WAYNE, Ind., Dec. 19—(UP)—A pretty Mexican mother rested in the comfort and quiet of a hospital today after giving birth to a daughter in the coal bin which serves as home for her husband and their seven children.

The proud father, Antonio Gamez, was "at home" with his brood in the dimly lit basement hovel for which he pays \$40 per month.

Faustina Gamez, whose only

worries are for her children, was taken to the hospital a few days ago after a charity organization learned of the family's plight. Gamez, a tomato packer in a canning factory, smiled when he talked of the new baby. He smiled even as he looked around the nine by 12 foot enclosure, with its rough walls and its nine toothbrushes hanging in an orderly row over the make-shift washstand by the orange-crate cupboard.

### DONATES EYES

NEW YORK, Dec. 19—(UP)—The brown eyes of Mrs. Jerome J. Kahn of Chicago underwent tests in a laboratory of the eye bank for Sight Restoration, Inc., today preparatory to being transferred to some unknown sightless person to whom she donated them in her last minutes of life.

The 38-year-old wife of the president of the Standard Transformer Corp., of Chicago, died yesterday. Her eyes were removed and sent in a refrigerated package by plane to New York where Red Cross workers took them to the eye bank.

Mrs. Henry Breckinridge, who is head of the eye bank, said the eyes would be tested before being offered to specialists who perform the delicate operation of transplanting the corneal tissues to a blind patient.

### RESCUES BOY

INDIANAPOLIS, Dec. 19—Wentford Foster, 23, was a hero

today after he ventured in a flaming house to rescue a nine-year old boy in an upstairs bedroom.

Foster, an army veteran, heard a small boy shouting for help as he drove along a city street last night. Eleven-year-old James Applegate told the youth that his brother, Albert, Jr., was trapped in their bedroom.

James, awaking and smelling smoke, had managed to escape from the home. Foster broke into the house, found the frightened child in blankets and fought his way out through flames and smoke. Neither was injured. The house was badly damaged.

The parents, Mr. and Mrs. James Applegate, had stepped out of the house for a few minutes before the fire started, police said.

### ROBBED TWICE

INDIANAPOLIS, Dec. 19—(UP)—Ladin's liquor store today was in the market for a burglar-proof cash box.

Two men entered the store early last night and at gun point took \$800 from proprietor Meyer Ladin. Before he left, Ladin filled up the till with \$250 for change.

An hour later, night manager Jacob Weiss laughed when another man tried to pull the same stunt.

"I thought he was kidding

me," said Weiss.

He wasn't. He took the \$250.

### ARMY PROGRAM

WASHINGTON, Dec. 19—(UP)—The army will present to the new congress a legislative program calling for a 1,750,000 man "M" day force that could be expanded to 5,500,000 within a year, an informed war department source said today.

Discussing the need for an adequate defense program, this source said a sudden attack today would find this country with only four divisions capable of withstanding an invasion at home.

The authorizations of the last congress called for a force of 1,070,000 officers and men on July 1, 1947. The army is using 195,000 of these for occupation duties.

Army plans, this source said, call for a national guard of 680,000 officers and men, an organized reserve force of 876,000 and an unassigned reserve of 876,000 and an unassigned reserve of 3,000,000.

### CIGARETTE BLAMED

PHILADELPHIA, Dec. 19—(UP)—A guest smoking in bed was blamed today for a fire

which swept the four-story Abe's hotel in the heart of the Negro section, killing four men and injuring 40 others, four seriously last night.

Two of the dead burned to death while the others were asphyxiated by smoke. All were dead on arrival at nearby hospitals and remained unidentified early today.

## MEET TWO FOES

Coach Hal Hickman and his undefeated DePauw basketball squad will travel to Galesburg, Ill., to meet the Knox College five Friday night, and then will journey to Macomb, Ill., to meet

the Leathernecks of Western Illinois State Teachers College on Saturday.

Coach Hickman plans to stick with his regular starters in both contests. Earl (Red) Gardner, Tiger ace, will work from the center position flanked by forwards Wally Etcheson and Billy Emly. Guards Bill Walton and Dick Light will handle the fast break chores.

Free substitution is expected, using Joe Boyd, a veteran center and letterman, along with Tom Beck, a freshman star, and forwards Bob Matte and Bill Nugent, both transfer students.

While the DePauw quintet has gone undefeated in four starts, Knox dropped their opening game to Augustana, 56-42, and then won over Grinnell, 40-38 in an overtime contest. They de-

feated Chicago University 55-45. DePauw won over the Chicago five 63-34.

The Macomb five claim a victory over the Peoria Caterpillars and have dropped their last two games to Chanute Field and Iowa State Teachers College.

### LITTLE RED SCHOOL THRIVES IN TOKYO

TOKYO (UP)—There's a little red schoolhouse in Tokyo—right across the street from the Russian Embassy—and it's the most exclusive institution of learning in Japan.

The school has a student body of 27, all children of members of the Soviet mission in Japan, and a faculty of nine teachers sent from the Soviet Union to see

that Russian-speaking Ivan and Tatiana get the right kind of primary and elementary school education.

Classes range from the first to the eighth grades and are attended by children from seven to 16 years. They learn the usual subjects taught American children in those grades, with somewhat more emphasis on singing and dancing. English is taught from the third grade on.

Three of the teachers are men and the rest are women. Some are wives of Soviet mission members.
